

# IMSF 2022 Meeting

## Fuel, Finance & the Future

Monday 24th October 2022

13:30 Registration

14:00 Opening of meeting

Christopher Pålsson, Chairman IMSF, Managing Director & Partner, maritime-insight  
Michael Maass, Global Manager Sustainable Solutions, Kühne+Nagel

14:30 Drivers for New Ship Ordering

Niklas Bengtsson, Director & Partner, maritime-insight

15:05 Maritime Forecast to 2050

Jakub Walenkiewicz, Market Analyst, DNV

15:40 Coffee & tea

16:10 LNG shipping market

Mariniki Psifio, Head of Research Department, Latsco Marine Management

16:45 Shipping's Path to De-Carbonization

Frederikke Munk Sorensen, Climate Manager, MAN Energy Solutions

End of day one

Tuesday 25th October 2022

09:30 Standardizing ports and maritime statistics

Jan Hoffman, Head Trade Logistics Branch, UNCTAD

10:05 The Ocean as a Solution to Climate Change – All Roads Lead to Rome

Elizabeth Lindstad, Chief Scientist, SINTEF Ocean

10:40 Coffee & tea

11:15 Feasible Pathways to Reduce Emissions in the Container Sector

Kai Miller, Trade Management - Energy, Emissions & Indexation, Kühne+Nagel

11:50 Maritime Trade Impacts of Carbon Prices

Simon Bennet, Deputy Secretary General, International Chamber of Shipping

12:25 Lunch

13:25 AIS Based Trends and Statistics for the Global Fleet

Torbjörn Rydbergh, CEO, Marine Benchmark

14:00 Ship Emissions of the Global Fleet - How to monitor emissions

Ralf Garrn, Managing Director, Scope SE & CoKGaA

14:35 Coffee & tea

15:05 Life Cycle Assessment of Biofuels

Neele Brauner, Trade Management - Energy, Emissions & Indexation, Kühne+Nagel

15:40 Impact of the EU Emission Trading System on the evaluation of container ships.

Christian Neumann, Student, Kühne Logistics University

End of day two

Wednesday 26th October 2022

09:30 Estimating, Modelling and Forecasting Shipping Emissions in Ports

Wessam Abouarhoub, Reader in Logistics & Operations Management, Cardiff University

10:05 Energy Efficiency and Emissions in Ports – Benchmarking and Technological change

Luisa Spaggiari, Fellow Research, Universidad de los Andes, Colombian

Lara Pomaska, Research Fellow, Hapag-Lloyd Center for Shipping and Global Logistics (CSGL), Kühne Logistics University (KLU)

Gordon Wilmsemeier, Associate Professor, Universidad de los Andes &, Director, Hapag-Lloyd Center for Shipping and Global Logistics (CSGL), KLU

Johannes Meuer, Co-Director Center for Sustainable Logistics and Supply and Logistics (CSLS), KLU

Max Mühlemeyer, Student, KLU

10:40 Coffee & tea

11:10 Modelling the Dimensions of Container Vessel Deployment Strategies

Cristiam Gil, Senior Researcher, Hapag-Lloyd Center for Shipping and Global Logistics (CSGL), Kühne Logistics University (KLU)

Gordon Wilmsemeier, Professor, Universidad de los Andes &, Director, Hapag-Lloyd Center for Shipping and Global Logistics (CSGL), Kühne Logistics University (KLU)

11:45 Impact of Economic Development on Shipping, Shipbuilding and Decarbonisation

Jakub Walenkiewicz, Market Analyst, DNV

Christopher Pålsson, Managing Director & Partner, maritime-insight

12:30 Lunch

13:30 Transfer to Port Terminal

14:00 Hamburg Port Boat Trip

17:00 Return to Port Terminal

18:30 Reception Hapag-Lloyd's 175th Anniversary

How will the industry change in the next months? What are the key lessons for the future? And how will globalization probably change?

Lars Jensen, CEO and Partner of Vespucci Maritime, analyst and strategist for the container shipping sector, Copenhagen

Ralf Habben Jansen, CEO of Hapag-Lloyd AG, Hamburg

21:00 Prof. Dr. Gordon Wilmsemeier, Director Hapag-Lloyd Center for Shipping and Global Logistics (CSGL) at Kühne Logistics University – KLU, Hamburg

Thursday 27th October 2022

09:00 Hapag-Lloyd's Symposium

Session I: Green Growth or De-growth?

Session II: Digitalization in Shipping - The "limits" and opportunities of collaboration in logistics platforms?

16:00 Session III: Environmental sustainability – zero emissions in 2050 - realistic pathway or dream?
